

THE VORGEE STORY

Vorgee, an Australian owned and managed company, was established in Brisbane, Queensland in 2005 to fill a gap in the aquatics market - the need for a 'holistic' aquatics company, one which offered products for those getting into the pool for the first time through to the competitive swimmer.

Made up of a team with over fifty years combined experience, in the aquatic industry, Vorgee set out to do just that - create a product for everyone, regardless of whether they purchase for style, performance or price.

The passion and desire of the Vorgee team to make a high quality swimming product and swim gear accessible and easy to understand for all, has led to Vorgee becoming one of Australia's leading and most preferred aquatic brands.
