NEW TO THE INDUSTRY?

If you are brand new to the industry and hold no prior qualifications, you will need to qualify by completing the Level 2 Award in Teaching Swimming first. This qualification develops the vocational skills and technical knowledge of a qualified swimming teacher, allowing you to independently teach your very own class of 12 participants from non-swimmers up to improvers (children and adults).

If you'd like to take it a step further to teach more ability groups, you will need to complete the Level 2 Certificate in Teaching Swimming qualification. The qualification will expand your expertise to teach competitive strokes, survival and rescue skills, diving, competitive starts and turns; allowing you to teach non-swimmers through to advanced participants.

YOUR SWIMMING TEACHING CAREER

TRAVEL WITH YOUR CAREER

As STA's qualifications are recognised internationally, you also have the option to travel with your career, opening up endless opportunities so you can explore and work at the same time.

EARNING POTENTIAL

As with any other job, income for swimming teachers vary according to the geographical location, skills and experience. Swimming teachers are typically paid by the hour for each session and rates can start from £8.00 to £25.00.

If you are a newly qualified Level 2 swimming teacher, then your earning potential is significantly higher than an assistant swimming teacher. To maximise your potential, you can also expand your knowledge into specialist areas such as baby swimming or disability swimming, by taking on additional qualifications or CPD's (continual professional development) either online or face-to-face.
